

Housing Navigator and COVID-19 Response Meeting

▶ 10/6/2020

Agenda

- ▶ Tiny House for Veterans, Shawna Love, The Love Group
- ▶ HUD's Definition of Homelessness
- ▶ HUD Data Quality Reports
- ▶ MTW Updates
- ▶ Agency Updates
- ▶ Wrap Up
- ▶ Announcements/Upcoming events
- ▶ Resources and Links

Tiny Houses for Veterans

HUD's Definition of Homeless

As described in the preamble of the Final Rule Defining Homeless, the final rule establishes four categories of homelessness. These categories are:

- (1) Individuals and families who lack a fixed, regular, and adequate nighttime residence and includes a subset for an individual who is exiting an institution where he or she resided for 90 days or less and who resided in an emergency shelter or a place not meant for human habitation immediately before entering that institution;
- (2) Individuals and families who will imminently lose their primary nighttime residence;
- (3) Unaccompanied youth and families with children and youth who are defined as homeless under other federal statutes who do not otherwise qualify as homeless under this definition; or
- (4) Individuals and families who are fleeing, or are attempting to flee, domestic violence, dating violence, sexual assault, stalking, or other dangerous or life-threatening conditions that relate to violence against the individual or a family member.

HUD Data Quality Reports

It is time for a progress report on HUD Data Quality. Earlier this year all agencies ran your Data Quality reports for January 1, 2019 thru March 31, 2020.

Each organization was then asked to make corrections as needed. Some expressed concerns or difficulties in correcting errors. Consequently, the HMIS Committee hosted the All User meeting in August where Desta Taylor of Eccovia Solutions demonstrated How to Run the HUD Data Quality Report, how to run the Detail Report, and how to fix errors.

To evaluate progress, each organization should run the HUD Data Quality Report again for the same date range: January 1, 2019 thru March 31, 2020. If you have zero errors, then WONDERFUL! Just email a PDF of your Data Quality Report. If you have errors, then run your Detail Report, correct your errors, rerun your Data Quality Report, and submit a PDF of your Data Quality Report.

Attached is a link to the recording of the August All User meeting. Also attached are step by step tutorials (screenshots) on running the Data Quality and Detail reports.

Please submit the post correction HUD Data Quality report by 5 pm on Friday, October 9th. To be sure that everyone has an opportunity to get some help or advice needed before submitting the reports, Desta will be hosting a "Data Quality Happy Hour" on Wednesday, October 7th from 3-4 pm.

Of course, you can always email questions or put in a ClientTrack ticket with questions as well.

Coming in
November
2020

The background features a solid green field on the left, transitioning into a series of overlapping, semi-transparent green triangles and polygons on the right. These shapes are arranged in a way that creates a sense of depth and movement, with some shapes appearing to recede into the background while others come forward. The overall effect is a modern, geometric design.
